Denmark

Dear Birgitte,

I write to thank you and your team for your help during the launch of our new Massey Ferguson Combine Harvesters last week.

Clausholm has proved itself to have been the perfect location for our event.

The castle and it's grounds provided a magnificent setting for the machine launch to our customers, and as a location for our photo shoot. The combination of the large stable yard, beautiful lawns, impressive moat and architecturally superb castle all combined to provide an impressive location.

The location for dinner provided the ideal environment for our customers to discuss the event and relax in the competent hands of your staff, the quality of the catering and service was beyond what we normally experience at events of this size.

Your ability to cope easily with our requests and execute them without fuss made our job much easier.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Mike Edmond", written over a faint grid background.
